We used an inappropriate electron photomicrograph in our published paper [1]. The Figure 6C should be replaced with the electron photomicrograph shown in Figure 1 here. Figure legend for this picture is not changed.

**Figure 1**  
**Ultrathinology of the colonic mucosa of the sensitized mice after challenge with OVA.** Representative EM photomicrographs are taken from the colonic mucosa of the sensitized mice after challenge with OVA and show (C) bacteria (arrows) adhering to and penetrating the epithelial cells (×3,000)
